## FINGER SCRAPER SYSTEM CUSTOMER TESTIMONIAL

CUSTOMER: JT Thomas Enterprise  
CONTACT: Jason Thomas (Owner)

I have a large mobile crushing/screening plant that utilizes textured belting that we find very hard to keep clean and free of carry back/buildup of material. We have tried other cleaners in the past and found not effective. Infinity Belting introduced to me their Finger Scraper.

Infinity Belting owner, Shawn Foley offered me a new cleaner, The Finger Scraper. In a little over an hour we were up and running. Those fingers were dancing on the belt and the carry back was falling through the cut-outs in the scraper body. 9 months later and no production loss and still haven't had to make any adjustments. In my books, Infinity Belting has a winning solution to cleaning textured belts.

Thank you, Infinity Belting
