February 2, 2018

Infinity belting ltd Finger scraper

We have been running the finger scraper on 2 of our belts for the last 2 years. One is on 24" smooth belt running hog fuel, the second is running on a multi V ribbed belt 36" wide hog fuel as well. I have seen significant change in the cleanliness of our belt and the consistency to maintain it with very little to no maintenance to the scraper system itself. We are in the process of now changing the fingers out. I have not seen another scraper myself, last this long without lots of adjustment and care.
